

**Balances pH and
adds electrolytes
like sports drinks**

**Boosts productivity,
performance, health
and attendance**

How the 3i+ takes care of you

1. Great taste so you drink more water, plus it balances pH and adds electrolytes
2. Perfect temperature hot and cold water options
3. Pure touch dispense prevents cross-contamination
4. Total system monitoring—patented microprocessor ensures perfect operation 24-hours a day
5. Easy filter replacement light is simple reminder
6. CleanContact™ anti-microbial surfaces resist germs
7. Dispense light reduces spills

Why it's so healthy and fresh

Stage 1

Sediment filtration
removes dirt, rust and silt

Stage 2

Carbon filtration removes organics
like chemicals, solvents and chlorine

Stage 3

80 GPD reverse osmosis removes
inorganics like lead, mercury and arsenic

Stage 4

Granular activated carbon
filter provides final finish

Stage 5

BOOST filter balances pH
and adds electrolytes

Stage 6

Activated O2 injection removes microbiologics
like bacteria, viruses and parasites
